Intro

[Winances.com](https://winances.com) is launching its own brand new crypto exchange.

A new ERC20 Token, called AWS - for All Winances Services - is created for this unique purpose.

AWS is available here, though a new ICO - <https://winances.com>

Transparency

[Winances.com](https://winances.com) wish to be identified on the market as the highest transparency exchange with all our members.

This politic will me be lead with a large consciousness by our team,

Misc.

There are fundamentally two different types of exchanges in the world: the ones dealing with fiat currency - the others ones dealing purely in crypto.

It is the latter one that we are focusing on actually, with a mix of both in the future.

Even though they are small now, we strongly believe that pure crypto exchanges will be bigger, many times bigger, than fiat based exchanges in the near future.

They will play an ever more important role in the world finance market.

With your help, [Winances.com](https://winances.com) will build a new and improved world-class crypto exchange, powering the future of crypto finance.

Problems and Solutions

Problems have been identified prior to our own Winances.com exchange development - we have solutions for all of them:

1. Many ICOs are now launched every day without any exchange listing solution. That is why we decided to provide, a reliable, easy and fast listing process, for very low fees.

Purchasing a minimum of our 10000 AWS token, will allow ICOs to be listed - or not / depending of audit result - within 48 hours only.

Form to be filled for audit is light and simple. KYC and AML will be the base of verification.

As we wish to be identified on the market as the higher transparency exchange with all our members, these requests will be automatically public displayed.

2. Also, too many ICOs are launched every day without any knowledges nor experiences. Linked with Point number 1. We decided to provide, a reliable, easy and fast ICO creation, launch and listing process, for very low fees.

Purchasing a minimum of our 100 000 AWS token, will allow any team to access this very particular service - or not / depending of audit result - within 30 days only.

Form to be filled for audit is light and simple. KYC and AML will be the base of verification.

Information will be filled also though this very particular form and review by Winances.com team for processing - or not.

As we wish to be identified on the market as the higher transparency exchange with all our members, these requests will be automatically public displayed.

3. Supports answers are much more too long. For all our registered AWS owners, we will guarantee a 48 hours delay for answer within our main supported languages only.

Customer's services will be placed in the center of our future and development. Customers are the base of our Business: let's replace them in the center of it and focus on all of them.

4. Languages supports developments will be increased by adding new member's teams within the followings natives speaking persons: Russian, German, Portuguese, Spanish, French, Arabic, Chinese, Philippines, Hindi and so on...

5. Incubator – For people wishing to invest in their own project, Winances.com will propose “Tailor – Made” ones : Company incorporation, Bank account opening, Business Plan, Team, Marketing Plan and so on... This is plan to be develop late 2018 / early 2019.

6. Light ICO Templates – For small and medium business, Winances.com will offer a fast and reliable ICO creator and launch with listing – Within 5 days, anyone will be able to launch a fast and reliable project online. This is plan to be develop late 2018 / early 2019.

7. “Winances.com Listing Certified” Label – Brand new Label to be used by all ICOs whom have applied for Winances.com listing. ICOs founders will receive this Label to be displayed on their own ICO website. A fully trust and liable Label for this large industry.

Team - General

Winances.com's team have been in both worldwide finance and crypto industry for many years.

The team has worked on and operated international business for a total of hundreds of years, and have accumulated a large network of partners in most business sectors.

These partners will be key in promoting and running the exchange.

Coins and Tokens

Winances.com will support trading pairs in the following Coins and Tokens:

- BTC
- ETH
- LTC
- NEO (ANS)
- TrueUSD
- IVI (inoovi.io)
- AWS (All Winances Services Token)

More Coins and Tokens will be added days after days.

We generally will only add coins and tokens that have strong credibility, user base, and liquidity.

If you have a coin or token that you wish to be listed on Winances.com, participating in our AWS Token ICO will help.

It will help because our Token price will increase periodically during ICO.

As you will need 10 000 to 100 000 AWS Tokens to use any of our services on our Winances.com exchange everyone should consider an early adoption / an early purchase.

So if you are ready to be listed or have a simple plan to be listed in the future, we propose all of you to buy our AWS Token as soon as possible, at the best price and until some are available as we are issuing only 250 Millions of AWS.

Plans also to support fiat currencies such as USD, EUR, HKD' RMB, JPY, or KRX and so on... will be launched in a near future.
